## THE EYES & EARS 2022

After two years of e-Edition, the annual industry highlight will take place during the day – also in person – at the hbw Conference Center. At the EYES & EARS, media professionals meet to find out about the latest trends, innovations and new perspectives in the fields of Design, Promotion & Marketing for media and entertainment brands from all over Europe.

But the new generation is also represented here: For the first time, **five NEW TALENTS**, who have already been selected in advance by a very well-staffed jury this time, will be able to present their excellent films and projects live. They will be showing a wide range of presentations, from a cinema film to social media campaigns to a cookbook.

Moreover, this year's EYES & EARS will kick off with five master classes and exciting instructors. Whether immersive audio, brand management, drawing, series editing or AI – there is something for all participants in this programme!
